

# PRO GOBO – SETUP INSTRUCTIONS

***\*\*Keep Packing Materials - Projector must be returned in plastic case\*\****

## SETUP GOBO PROJECTOR

1. Plug projector into outlet using power cord provided. It is pre-loaded with your design/color.
2. Place projector on table or tripod (*optional add-on*).
3. Aim projector where you want to display image. Use bracket to adjust the angle.
4. Twist focus knob until image is in focus.

## IMAGE SIZE

The farther away the projector is from the wall / floor, the larger the image will be.

## ROTATE IMAGE

1. Press "**Mode**" until "**Nan**" appears on the menu screen. Press "**Enter**".
2. The word "**Gobo**" will appear on screen; press "**Enter**".
3. The word "**Stop**" will appear on screen.
4. Press "**UP**" or "**DOWN**" and the image will rotate.
5. Once image aligned, lock in place by pressing "**UP**" or "**DOWN**" button until you see "**Stop**" on menu screen.

## Troubleshooting: Image Not Visible or Not Projecting

- a. **Reset Projector:**
  - i. Press "**Mode**" button on back of projector until "**REST**" appears on display. Press **ENTER**.
  - ii. *If still not appearing, continue with next steps.*
- b. **Change Mode:**
  - i. Hit "**Mode**" button on back of projector until you see "**LoAd**" on display. Press "**ENTER**".
  - ii. Press "**Mode**" button until "**nAn**" appears on the display. Press "**ENTER**".
  - iii. You should now see "**Gobo**" appear on the display. Projection image should be visible.
- c. To stop rotating image, press "**Manual**" button on the remote.

## RETURN INSTRUCTIONS

1. Put gobo back in the plastic case. Secure with zip ties (provided inside case).
2. Prep for shipping:
  - a. If you ordered only a projector (*OR if there is a shipping label on plastic case*):
    - i. Remove prior shipping label. Affix pre-paid return shipping label.
  - b. If you rented other items (*no shipping label on plastic case*):
    - i. Put plastic case inside cardboard box with other items
